MOTIVATION

Critical development researcher specialising in labour, platformisation and inequalities in the Global South. My work investigates how subsumption under platform capitalism reshapes labour processes, class stratification, and the rhythms of paid and unpaid work. Through activist ethnography, multilingual outreach, and grounded policy analysis, I hope to tie together workers' lived experiences to broader advocacy for just and inclusive digital transformations.

AREAS OF INTEREST

Digital Labour | Political Economy | Labour Geography | Social Reproduction | Public Finance | Agrarian Change

EDUCATION

Doctor of Philosophy: Development Studies and Human Geography, 09/2023 - Current

King's College London – London

Bachelor of Engineering: Mechanical, 08/2011 - 05/2015

University of Pune - Pune, India –

Specialisation: Power Plant Engineering and Operations Research

Certification/Specialisation: Labour & Globalisation, 04/2021 - 04/2021

V. V. Giri National Labour Institute - New Delhi, India

Certification: The Political Economy of Trade Union Movement in India, 01/2022 - 01/2022

CDPR, Tata Institute of Social Sciences - Patna, India

PHD THESIS

Title: Domestic Work, Platformisation and Social Reproduction in India

To understand the complex terrains of paid domestic workers within app-based platform economy and their crisis of everyday life, this study employs social reproduction analyses and delves into the profound influence of conjunctures on shaping the spatial and temporal landscapes of precarity and forms of exploitation for workers.

MA DISSERTATION

Title: *'Agrarian Change in Maharashtra: A Resurvey of A Village in Western Maharashtra with Reference to Land and Asset Ownership'*

This was an attempt to resurvey a village of 604 households in Western Maharashtra with mixed methodologies of 'longitudinal village survey', quantitative, qualitative, and dependency theory to understand socio-economic changes over the period.

WORK HISTORY

Teaching Assistant, 1/2026 – Present (Hillary Term)

Oxford Internet Institute, University of Oxford

- I'll be assisting Prof Mark Graham and Dr Janaki Srinivasan in teaching Fair Digital Economies to MSc Social Science of the Internet course.

Guest Faculty, 11/2024 – Present

School of Rural Development, Tata Institute of Social Sciences (TISS) – Tuljapur

- Designed and delivered a 30-hour undergraduate course titled *Political Economy of Development*, introducing key concepts, paradigms, and policy debates.
- Engaged students through case studies, in-depth discussions, and critical reflections, fostering an environment for unlearning and critical inquiry.

Research Assistant, 07/2024 – 12/2024

King's College London, London

- Extracting Periodic Labour Force Survey (PLFS) and NSSO Employment and Unemployment Survey (EWS)
- Unit-Level Data Analysis
- Merging Datasets from 2017-2025
- Employment Trend Analysis – Women's Work, trends wrt social categories, wages, Industries and Occupations contrasting with industry level GVA rates

National Coordinator, 11/2022 - 07/2023

India Labourline - Mumbai

Collaborative Project of *Working People's Coalition* and *Aajeevika Bureau*

- Led organising efforts with gig workers in Mumbai and Bengaluru, generating insights into platform control, digital labour grievances, and worker agency; directly informing my academic research.
- Functional consulting for the development of internal MIS and required technological support in the transformation of business processes
- Training staff with an understanding of labour issues and grievance redressal mechanisms

Research Associate, 09/2022 - 10/2022

Transitions Research - Goa

Roles: Conducted interviews with gig workers, unions, and platform managers, contributing to analysis of digital work, precarity, and global production networks

Project: Expansion of the Gig Economy in India and Opportunities for EBMOs: Country Study and Regional Synthesis Report (funded by ILO)

Tech-Gov Consultant, 03/2021 - 02/2022

Finance Department, Govt. of Andhra Pradesh - Vijayawada

Roles: Primarily responsible for technological transformation of the business process of the finance department as a Project Manager, Secondary roles were database management, data analysis and advising the Principal Finance Secretary

Projects: i. Public-Works Management System (WMS); ii. Modernisation of GoAP Finance Codes; iii. Budget Preparation and Analysis; iv. Beneficiary Management Systems; v. Data Sharing Policy for APCFSS; vi. Provident Funds Policy Comparative Analysis; vii. Andhra Pradesh Legal Cases Monitoring System (APOLCMS)

Project Manager, 02/2022 - 05/2022

Development Solutions - New Delhi

Roles: General Management of Social Sector Projects, Client Interface; Operations Research: Devising Research Plans, Leading research teams, leading data collection, analysis and writing reports

Projects: 1. *Child-Labour Free Jaipur (CLFJ)*, funded by CIFF & Freedom Fund, London The objective of project was to understand the origin and destination fields of child-labour, reasons of child being forced in labour, their conditions at workplace, their rescue, repatriation and rehabilitation with constant follow-ups

2. *Perception Survey - Role of ASHA workers in India's fight against Air Pollution* To understand the awareness, knowledge, and perceptions of ASHA workers on air pollution, and its health implications; to understand the impact of

air pollution on the children and families of ASHA workers, if any; and the role of mothers and carers in the context of health and air pollution.

Research Consultant, 02/2022 - 07/2022

xKDR - Mumbai

Roles: Literature Review, Data Cleaning and Wrangling, Data Analysis and Visualisation, Writing Paper

Projects: 1. *Household Debt Conditions in India* In this project, we used the CMIE Consumer Pyramid Household Survey (CPHS), which provides data on household debts, outstandings, delinquencies, sources and reasons for loans taken, household characteristics, assets and income.

2. *Role of Payment Methods, Households'/Individuals' Payment Method Preferences and Its Impact on their Income and Debt Conditions* This project also used CMIE CPHS data to understand payment methods available to individuals and households, their access, digital access and literacy, and its overall effect household finance.
